EDUCATION

B.sc Computer Science

Sacred Heart College
(2022 - 2025)

MCA

St. Joseph's College
(2025 - 2027)

SKILLS

- Management Skills
- Problem Solving Skills
- Communication Skills
- Leadership qualities
- Negotiation

CERTIFICATIONS

DBCSD Certified Course

- Blockchain Technology - 2023
- Cloud Computing - 2024

Udemy Course

- Data Structures and Algorithms in C
- Data Analytics using Python

NPTEL

- Database Management System

LANGUAGE

- Tamil
- English

PROFILE

Passionate web developer with hands-on experience in frontend and backend technologies, seeking a challenging role to build scalable and user-friendly applications while expanding my technical expertise.

TECHNICAL SKILLS

- Programming Languages: C, C++, Java, Python (Core)
- Web Technologies: HTML, CSS, JavaScript, React
- Backend: Node.js, Express
- Database: MySQL, Oracle
- Tools: Git, VS Code
- Concepts: OOPS, DBMS, Data Structures

ACADEMIC PROJECT

1) Gender Prediction Application

Built a machine learning-based application to predict gender from user inputs like names, delivering real-time results through a simple interface.
Technologies Used: Flutter, Python, Machine Learning

2) AI Study Planner

Built and deployed a full-stack web application that generates personalized study schedules based on user goals, deadlines, and subject difficulty levels. Implemented secure authentication, dashboard analytics, MongoDB integration, and cloud deployment using Vercel and Render.

3) Disease Prediction System using Machine Learning

Developed a machine learning model to predict possible diseases based on user-input symptoms.
Technologies Used: Python, Scikit-learn, Pandas

ACADEMIC ACHIEVEMENTS

- Top academic rank during UG and MCA.
- Presented a survey paper on an international Conference.
- Participated in PitchFest and pitched an idea.
